KUSTOM KINGS CONCEPT REVIEW

Buttons cars and gameplay ideas

One review book with all 460 V2 button choices, 12 proposed car and character pairings, and 10 ranked gameplay ideas.

CLICK A SECTION TO JUMP

01 Button ideas

Pages 2-36 | 92 rows and five choices per row

02 New car ideas

Pages 37-42 | Two concept boards and the full source key

03 Gameplay ideas

Pages 43-46 | Ten ranked ideas, top three and research sources

Use “Button B3” for button choices and “Car B3” for car concepts. PDF bookmarks also jump directly to individual button sheets.

Artwork remains for review and selection; it has not been installed. Gameplay implementation has been requested and is in progress, not reported complete here.

KUSTOM KINGS / V2

460 action-specific button choices

92 control families. Five distinct alternatives per row. Review concepts only.

CHOOSE BY COORDINATE

Use the column letter and global row number, such as B3 or E7.

Coordinates stay unique across the whole book. Zoom in to compare lettering.

A-E are choice coordinates, not style categories.

Each row explores five objects or compositions for that particular action.

Custom paint, pinstriping, engine turning and lace appear selectively.

Illustrations range from tools and machinery to people, animals and oddballs.

Typography is integrated into each generated artwork.

Review notes

Row 22 proposes DYNO TUNE for the existing button mislabeled SWAP MEET.
Row 85 proposes TIMING -1° after image generation rejected the existing ignition-retard wording.
Toggle/replay controls show their primary headline; alternate states need matching art after selection.
Dynamic names, prices and stages stay supporting data. Row 50 uses the shorter GUIDED PRACTICE.
These are generated artwork concepts, not implemented production assets.

LABEL KEY 1-46

Exact review headlines; select any A-E option using its row number.

KUSTOM KINGS CONCEPT REVIEW

Car selection key 1 to 3

Car A1 Copper Comet

Nell Caliper Flint

1954 Chevrolet Corvette-inspired open sports custom. Copper/ivory; precise chassis specialist.

Vehicle reference: National Corvette Owners

Car B1 Night Shift

Otis Switch Bell

1947 Ford cab-over-engine truck-inspired custom flatbed. Navy/cream; electrical specialist and heavy support.

Vehicle reference: Hot Rod

Car C1 Velvet Volt

Mina Line Cho

1936 Ford three-window taildragger-inspired custom. Plum; pinstriping and show-scoring specialist.

Vehicle reference: Fuel Curve

Concepts, not exact factory geometry or production-ready 3D models. Colors, names, characters and roles are original proposals; names are not trademark-cleared.

Select with the Car prefix, such as Car A1. Reference sources establish broad vehicle identity, not fictional performance.

KUSTOM KINGS CONCEPT REVIEW

Car selection key 4 to 6

Car A2 High Note

Jules Tempo Reed

1941 Willys coupe-inspired gasser. Tangerine/cobalt; launch-timing specialist.

Vehicle reference: Fuel Curve

Car B2 Moon Velvet

Sol Contour Arden

1937 Cord 812 Beverly sedan-inspired custom. Silver/teal; upholstery expert and composed luxury rival.

The rendered grille is a particularly loose custom interpretation; retain wraparound horizontal coffin-nose louvers in any historically closer refinement.

Vehicle reference: Louwman Museum

Car C2 Salt Script

Ada Decimal Quinn

1953 Studebaker post-coupe-inspired salt racer. Ivory/vermilion; aerodynamicist and momentum specialist.

Vehicle reference: Hot Rod

Concepts, not exact factory geometry or production-ready 3D models. Colors, names, characters and roles are original proposals; names are not trademark-cleared.

Select with the Car prefix, such as Car A1. Reference sources establish broad vehicle identity, not fictional performance.

MARIN PRISM SAYE

Car selection key 7 to 9

Car A3 Switchback

Kit Patch Mercer

1956 Chevrolet Nomad-inspired custom wagon. Moss/cream; mobile parts librarian and endurance support.

Rendered wagon is a loose Tri-Five interpretation; preserve Nomad-specific roof/pillar/body details during refinement.

Vehicle reference: Speedway Motors

Car B3 Fin Runner

Rue Relay Calder

1959 Chevrolet El Camino-inspired coupe utility. Coral/white/teal; resourceful parts courier.

Vehicle reference: GM Heritage

Car C3 Brass Wake

Leon Arc Brindle

1936 Auburn boat-tail speedster-inspired custom. Petrol/champagne; metal-shaper and prestige show rival.

Vehicle reference: American Heritage Museum

Concepts, not exact factory geometry or production-ready 3D models. Colors, names, characters and roles are original proposals; names are not trademark-cleared.

Select with the Car prefix, such as Car A1. Reference sources establish broad vehicle identity, not fictional performance.

Car selection key 10 to 12

Car A4 Pocket Riot

Tavi Click Rowan

1948 Ford Anglia-inspired micro-gasser. Acid yellow/black; inventive short-wheelbase agility specialist.

The rendering uses a generic period grille rather than the documented three-opening North American 1948 grille; refine if year fidelity matters.

Vehicle reference: Anglia Obsolete

Car B4 Ink Hauler

Inez Letter Moss

1950 Chevrolet 3100 panel-delivery-inspired custom. Parchment/burgundy; sign painter and durable utility support.

Vehicle reference: J D Power

Car C4 Lunar Lilt

Marin Prism Saye

Original 1950s-style belly-tank lakester. Polished aluminum/lavender; materials designer and specialist straight-line racer.

Open-wheel torpedo form intentionally replaces the proposed bubble-top concept to avoid overlap with the existing Beatnik Bandit, Mantaray and Orbitron.

Vehicle reference: Hot Rod

Concepts, not exact factory geometry or production-ready 3D models. Colors, names, characters and roles are original proposals; names are not trademark-cleared.

Select with the Car prefix, such as Car A1. Reference sources establish broad vehicle identity, not fictional performance.

The top three gameplay priorities

01 Repairs you can see hear and feel

Make each repair visibly clean up or replace its part, quiet the associated fault and improve the matching driving behavior. A repaired engine should sound healthier; suspension work should make the car feel more settled.

First priority: connect garage effort directly to a satisfying change on the road.

02 Useful drag racing time slips

After each run, show reaction time, elapsed time, personal best and one short tip based on what actually happened. Keep reaction time separate from elapsed time so improvements are understandable.

Second priority: turn every run into a clear reason to try again.

03 Three recurring rivals

Give three rivals distinct personalities, cars and driving habits. Let them remember wins, losses and the player’s build, then return for short rematches as progress advances.

Third priority: make repeated races feel like a developing relationship.

Gameplay ideas four to six

04 Reversible driving setups

Offer saved drag, circuit and cruise setups with clear trade-offs and an easy return to the previous setup. Let experimentation teach the player without forcing repeated rebuilding.

Keep the first version to three understandable presets.

05 Inspect junkyard finds before buying

Show visible faults, the likely repairs and an estimated repair cost during inspection. Let the player weigh a cheap rough shell against a more complete car before committing.

Reward attention and judgment instead of surprise expenses.

06 Small delivery jobs

Add short parts, paint or workshop delivery jobs that use the existing roads. Vary the vehicle and handling challenge, with modest rewards that feed the garage loop.

A practical reason to drive between bigger events.

Gameplay ideas seven to ten

07 A garage scrapbook

Save before photos, the first win in each car, personal-best slips and show trophies. Let players revisit how a rough find became their own build.

Make progression personal and easy to remember.

08 Optional quick skill challenges

Offer brief braking, launch, cornering or smooth-driving challenges with immediate feedback and an optional retry. Keep them available as practice rather than mandatory gates.

Help players improve without interrupting free play.

09 Cruise night meets and show categories

Create a relaxed meet with a few clear judging categories, such as paint, craftsmanship or overall character. Let different kinds of builds have a reason to attend.

Give appearance and individuality a social payoff.

10 A compact three stop road trip

Build one short trip with three memorable stops, a small route choice and a light maintenance or cargo decision. Reuse roads where possible rather than starting with a huge new map.

A bounded way to test adventure beyond the garage.

Ranked design proposals. Implementation is in progress; this book does not claim the features are complete.

Gameplay research sources

These references informed the research and genre comparisons. The ranked features and suggested scope are recommendations for this game, not claims that each source implements every idea.

My Garage

Repair, maintenance and physical behavior; junkyards and delivery work.

Gran Turismo 7 online manual

License and driving-skill practice reference.

NIGHT-RUNNERS PROLOGUE

Racing crews, detailed customization and character dialogue reacting to progress.

Motor Town Behind The Wheel

Driving work and a broader vehicle-based gameplay loop.

Jalopy

A compact road-trip and vehicle-maintenance reference.

Research references checked 12 October 2026. Vehicle-specific references are linked in the car selection keys.
